

Frequently Asked Questions

Who can join the program?

The program is designed for Medicare patients who may benefit from extra support managing conditions that affect their heart, blood pressure, blood sugar or kidney health. Your eligibility will be verified before enrollment.

Will this change my current Medicare benefits or my supplemental plan?

No. Enrolling in this program does not change your Medicare benefits or your choice of doctors. Aledade Access is an “add-on” program to provide better care between your regular visits.

Is there a cost to participate?

There is no cost to participate in this program. You will not receive a bill from Aledade for participating or be charged for the blood pressure cuff used in the program. If healthcare services are recommended as part of the program, your usual Medicare costs may still apply.

Ready to join?

Signing up for Aledade Access takes only a few minutes.

Choose the option that works best for you:

Aledade
Access

Helping you and your primary care team stay connected between visits.

Extra support for your heart and kidney health

Enrollment takes about 10 minutes.

Learn how to get started inside.

Covered by Medicare and available at no additional cost to eligible patients.

Why was I invited?

Your primary care team recommended this program to make sure you are getting the support you need to manage your chronic conditions between visits. Aledade Access gives your primary care team a better understanding of your health through simple at-home monitoring and support.

Why does this matter?

Keeping an eye on your health between visits can help you feel your best and stay on track toward your health goals. It also gives your care team information that can help guide your care.

This means they can:

Spot problems before they get worse

Adjust your treatment sooner if needed

Know more about your day-to-day health

What is Aledade Access?

Aledade Access helps you stay connected with your doctor's office between visits. The Aledade Access team works together with your primary care team and shares updates that help them better support your health.

What you can expect

A wireless blood pressure cuff - mailed to you for free

Monitor your blood pressure at home and automatically share readings with the Aledade Access team.

Support for healthy habits

Get simple tips for eating well, staying active and managing your blood pressure, cholesterol, blood sugar and weight.

Help with your medications

Get answers to questions about your medications with support from an Aledade pharmacist.

Check-ins between visits

Receive text and phone check-ins from the Aledade Access team — no app, computer or login required.

Getting started is easy.

1

Confirm that you qualify. Answer a few quick questions about yourself. We will let you know if you can join the program.

2

Tell us where to send your blood pressure cuff. We will send a blood pressure cuff to your home at no cost to you.

3

Give us your consent to participate. We will explain the program so you know what to expect before you join.

4

Tell us how to reach you. Share your phone number and email address. Within a few days, we will send you a text message to confirm your enrollment and explain next steps.
