

Extra Support for Your Health

— Introducing *CACP through Iris* —

Your healthcare team is partnering with Aledade and Iris to offer additional support for patients who may benefit from extra help managing their health.

What is CACP?

CACP stands for **Comprehensive Advance Care Planning**. It gives you an opportunity to talk about your healthcare wishes, goals, and what matters most to you—especially when planning for future healthcare needs.

During your visit, you can:

- Talk about your healthcare goals and what is important to you

- Discuss the kind of care you would want if you were unable to speak for yourself

- Ask questions about advance care planning

- Review or complete important healthcare documents

- Make sure your loved ones understand your wishes

This is **YOUR** healthcare plan.

There is no right or wrong answer. Your care team is here to listen, answer questions, and help you make decisions that reflect *your wishes and your values.*

*We are here to help you plan for
the care you want—when you need it.*
